

## NOTABLE GEOGRAPHERS, MODELS AND THEORIES YEAR LONG PROJECT

This is an on-going activity for all year long. Complete the following information for each of these famous geographers as we study each unit and read about the geographers and their contributions. Some fit into more than one unit so make note of that. You will do each of these on a separate piece of paper.

**Final Report is Due: On April 1<sup>st</sup> (will count as an Academic Achievement grade for the 6<sup>th</sup> Six Weeks.)**

**Unit or Units:**

**Geographer and/or Model or Theory:**

**Country/Date and Short Bio (where appropriate):**

**Major Contribution(s):**

**Sketch of model, map and/or visual (where appropriate):**

**Strengths and weaknesses of this model or theory:**

**Is it still effective or used today to explain its premise?**

**Make your own creative device to remember this geographer and his/her model:**

**Source of Info [pages in the Textbook or supplementary source):**

NATURE/ PERSPECTIVES	POPULATION/ MIGRATION	POLITICAL
<i>Carl SAUER</i>	<i>Ernst George RAVENSTEIN</i>	<i>Alfred MAHAN</i>
<i>Friedrich RATZEL</i>	<i>Laws of Migration &amp; Gravity Model</i>	<i>Sea Power</i>
<i>Organic Theory</i>	<i>Thomas MALTHUS</i>	<i>Nicholas SPYKMAN</i>
<i>Alfred WEGENER</i>	<i>Warren THOMPSON</i>	<i>Rimland Theory</i>
<i>Continental Drift Theory</i>	<i>Demographic Transition Model</i>	<i>Halford MACKINDER</i>
<i>Environmental Determinism</i>	<i>Epidemiological Transition Model</i>	<i>Heartland Theory</i>
<i>Possiblism</i>	<i>Sustainable Development Theory</i>	<i>Domino Theory</i>
CULTURE/ LANGUAGE	DEVELOPMENT/ RESOURCES	INDUSTRY & ECONOMIC DEVELOPMENT
<i>GIMBUTAS</i>	<i>Walter ROSTOW</i>	<i>Alfred WEBER</i>
<i>Kurgan Hypothesis—</i>	<i>5 Stages of Economic Development</i>	<i>Least Cost Theory</i>
<i>Language Diffusion w/ Conquest</i>	<i>Immanuel WALLERSTEIN--</i>	<i>R. E. LANG &amp; P. J. TAYLOR</i>
<i>Colin RENFREW</i>	<i>World Systems Theory</i>	<i>Core-Periphery Model</i>
<i>Anatolian Hypothesis—</i>	<i>Wilber ZELINSKY</i>	
<i>Language Diffusion w/</i>	<i>H. CAREY</i>	
<i>Agriculture</i>		
AGRICULTURE AND RURAL LAND USE	CITIES AND URBAN LAND USE	
<i>J. H. VON THUNEN</i>	<i>Ernst BURGESS—Concentric Zone Model</i>	
<i>Von Thunen Model</i>	<i>Homer HOY—Sector Model</i>	
<i>Norman BORLAUG</i>	<i>C. HARRIS &amp; E. ULLMAN—Multiple Nuclei Model</i>	
<i>Green Revolution</i>	<i>Peripheral Model aka Galactic Model</i>	
<i>Esther BOSERUP</i>	<i>Ernst GRIFFIN &amp; Larry FORD—Latin American City Model</i>	
<i>Sustainable development</i>	<i>P. O. MULLER Suburbanization</i>	
<i>Walter CHRISTALLER</i>	<i>John BORCHERT</i>	
<i>Central Place Theory</i>	<i>Model of Urban Evolution</i>	
	<i>5 Epochs of the History of American Urbanization</i>	
	<i>Bid-Rent Theory</i>	
	<i>Rank-Size Rule</i>	
	<i>Urban Primacy</i>	

Some of these geographers, models, theories, or concepts may fit into and be found in more than one unit of study.
